- We are looking forward to your valued orders.

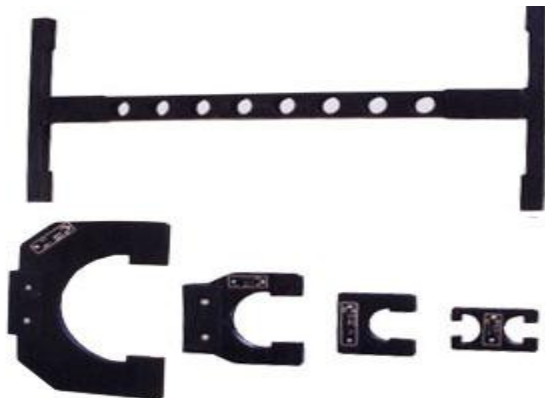

Fixed Snap Gauge:

SINGLE ENDED SNAP GAUGE

DOUBLE ENDED SNAP GAUGE

Fixed Snap Gauges are manufactured based on relevant IS specification in graded steel, sizes ranging from 1mm — 275 mm in various types of designs, viz. Built type design, single ended progressive type design, double ended design etc. We also manufacture such gauges as per customers requirement

Variety & Inventory Reduction

Facility of size adjustment enables you to reduce the variety of different sizes and thereby inventory reduction.

Cost Reduction

By resetting different sizes from time to time actual gauge cost is lowered. Thus recurring procurement cost is also reduced.

Standardization

Planning your requirement on standard gauge in adjustable type would result in reduction of gauges to fewer types.

Enormous benefits over Fixed Snap Gauges are gained as reconditioning facility is available whenever product line changes.

Convenience

Availability of gauges ' EX-SHELF ' would facilitate administrative convenience and economize on purchase procedures by easy and immediate contact on Fax, Phone or e-mail.

Accuracy

All gauges are manufactured as per accuracy specified in IS 7606-1982.

Adjustable Snap Gauge:
