- TIN NO 24070901229 , CST No. 24570901229
- We are looking forward to your valued orders.

# INSIZE MAKE

## DIGITAL INDICATOR

2103-10

2104-25

2103-50

Unit: mm

### Operation

The instrument is held perpendicular to the sample surface, the tip enters the valleys and its penetration is registered on the scale. The gauge is adjusted to read on a very flat surface. The instrument is placed on the plate glass sample supplied and the foot adjusted with the Allen key until the two pointers register almost zero. Final adjustment is made by rotating the outer scale using the knurled ring. Once placed on the surface the penetration of the tip into the valleys is registered on the scale, the inner pointer indicating the number of complete rotations of the large pointer.
